

Wyoming

#1 National Recommendation

When the reauthorization of the DD Act happens make Self Advocacy a equal forth DD Network partner.

#2 National Recommendations

Require P&As and UCEEDs to support self-advocacy like the DD Councils.

- This support will be used to support a self-advocacy resource centers run by and staffed by self-advocates.

- These centers will provide real, hands on training opportunities and information to people with disabilities. (like voter training)

- These centers will also provide accurate information on public benefits. The goal of providing this information will be to help remove the “Fear Factors” of losing benefits.
